

I am profoundly hard of hearing and can only watch TV when there is captioning.  
My thanks to the FCC for mandating closed captioning for TV.

I cannot wait for January1, 2006, when all new TV will be captioned.

I do enjoy and appreciate what I have now.

The few problems I encounter these days are;

Sometimes there is no captioning when their should be and the channel does not  
respnd to my letters.

At time live captions have errors and are too slow.

I believe some channels are violating the law when there should be captioins and  
they do not provide the captions.

Thank you.
